TECHNICAL SKILLS

- Front-end Development - HTML5, CSS3, JavaScript, Vue.js, React.js, Responsive Web Design
- Back-end & Databases - Node.js, Express.js, REST APIs, MongoDB, MySQL
- Hosting & Deployment - GitHub, Vercel, Render
- Tools & Methodologies - Git, Postman, VS Code, Sublime, IntelliJ, Trello, Microsoft Office
- Design & UI/UX - Figma, Adobe Photoshop

SOFT SKILLS

- Attention to Detail – critical for both design precision and clean code.
- Problem-Solving – debugging, design challenges, finding solutions independently.
- Adaptability – learning new tools and frameworks quickly.
- Collaboration – working with clients and teams.
- Creative Thinking – UI/UX and front-end work requires visual and UX thinking.
- Time Management – balancing multiple projects across design and development.

PROJECT EXPERIENCE

1. **SOUL - Ecommerce App** (Vue.js, Node.js, Express.js, MongoDB, Bootstrap)

- Built a full-stack e-commerce application using Vue.js, Node.js, Express.js, and MongoDB.
- Developed product catalog, item detail, and shopping cart functionality to support end-to-end customer purchasing workflows.
- Designed responsive user interfaces and integrated backend APIs for real-time product management and data persistence.

2. **Skyflix** (HTML5, CSS3, Bootstrap, JavaScript, Vue.js, MongoDB)

- Developed a media browsing platform using Vue.js component architecture and MongoDB data modeling to display and manage dynamic content.
- Implemented responsive Bootstrap layouts and reusable UI components, ensuring a seamless experience across desktop and mobile devices.
- Integrated RESTful API communication for efficient retrieval and rendering of media data.

3. **Daily Write** (HTML5, CSS3, Bootstrap, JavaScript, Vue.js, MongoDB)

- Engineered a journaling application with full CRUD functionality for user-generated entries using Vue.js and MongoDB.
- Designed reusable Vue.js components to streamline content creation, editing, and management workflows.
- Implemented database integration and API endpoints to support persistent storage and retrieval of journal entries.

4. **Niji - Simple Website** (HTML5, CSS3, Bootstrap)

- Developed a responsive multi-page website using semantic HTML5, custom CSS, and Bootstrap.
 - Implemented mobile-first layouts and reusable UI sections to ensure consistent user experiences across devices.
 - Optimized page structure and accessibility through semantic markup and responsive design principles.
-

WORK EXPERIENCE

Brightideas | Feb 2025 - Dec 2025

UI/UX Designer

- Designed a complete UI system and interactive prototype for the University of Cagayan Valley, reducing client revision cycles by streamlining design handoffs for academic and institutional workflows.
 - Built a comprehensive design system with reusable components, cutting prototyping time for future projects and ensuring visual consistency across all institutional interfaces.
 - Developed full-scale wireframes and high-fidelity prototypes in Figma, accelerating client presentation approvals and enabling faster stakeholder sign-off.
-

EDUCATION

FEU Institute of Technology | 2020-2025

BS Information Technology, Web and Mobile Applications

- UI/UX Designer | Front-end Developer in Capstone Project (TQC - a Web Based Electronic Health Record and Mobile Booking System with OCR scanner for the Queen's Birthing Home Clinic).
- Best Research Poster Technology Innovation in Capstone Project (TQC - a Web Based Electronic Health Record and Mobile Booking System with OCR scanner for the Queen's Birthing Home Clinic)

Zuitt Tech Program | 2026

Coding Bootcamp

- Collaborated with a partner to design and develop **Soul**, a full-stack e-commerce capstone project, translating Figma UI designs into a fully functional web application built with HTML5, CSS3, Vue.js, and MongoDB.
 - Developed **Skyflix**, a streaming platform-inspired web application using Vue.js and MongoDB.
 - Developed **Daily Write**, a journaling web application with full CRUD functionality, enabling users to create, manage, and organize personal entries through an intuitive Vue.js interface backed by MongoDB.
-

CERTIFICATIONS

- IT Specialist: HTML & CSS (Certiport)
- IT Specialist: Python (Certiport)
- IT Specialist: Databases (Certiport)
- Cisco DevNet Associate
